ANTIOCH, ILLINOIS, THURSDAY, JANUARY 7, 1965

VOL. LXXIX NUMBER 28

American Life Satirized On PM&L Stage

On January 15, 16, 22 and 23 Palette, Masque & Lyre will present a Thurber Carnival at the PM&L Theatre, Main Street, Antioch. Curtain time is 8:30 p.m.

A Thurber Carnival is a revue for those people with no musical talent, created by America's leading humorist, James Thurber. It is a collection of sketches depicting the American way of life. Thurber satirizes everything from Christmas shopping to the battle of the sexes.

The music will be provided by Dr. Jim Kopriva, Joe Kanka, Bill Brook, and Bob Soukup, under the direction of George Olsar. You will see such famous sketches as "The Night the Bed Fell," "Unicorn in the Garden," "Gentlemen Shoppers," "Secret Life of Walter Mitty," and "File and Forget," "The Last Flower."

The cast includes folks you will remember from past PM&L productions along with some very welcome newcomers. They are Don Beveroth, Al Bucar, Louise Camp, Wes Camp, Don Cardiff, Gloria Davis, Gerri Duncan, E. Trumann Garrett, Josef Hunley, Marie Jasien, Larry Landis, Valerie McElroy, Arnold Schummeister and Betty Smouse. "A Thurber Carnival" is being directed by Ken Smouse.

An art exhibit by Rosalie Lyons will be on display throughout the theatre. We invite you to come early and view the display.

Tickets may be reserved for the January 15, 16 and 22 performances by phoning 395-3613. January 23 date has been sold out.

Rescue Squad Calls In New Year

Estelle Fowler, 76, of 1054 Main St., Antioch, was taken to the hospital by the Antioch Rescue Squad on December 30, 1964.

George Bosnick, 22, of Rt. 2, Box 463, was taken to Victory Memorial Hospital with face lacerations and possible chest injuries after a car accident on Jan. 1. Bosnick reportedly ran off the road on Deep Lake Rd., after falling asleep, and hit a tree.

Jack Dodge, 34, of 581 Main St., was taken to Victory Memorial Hospital after a fall on the ice.

Thelma Nelson, 48, of Box 229, Trevor, was taken to Victory Memorial on Jan. 2 by the squad.

Kimberly Briedel, 4 year old, Rt. 3, Box 495, Antioch, was taken to the Antioch Clinic on Jan. 4 with an object in her throat.

Man is the only animal known who goes to sleep when he isn't sleepy and gets up when he is.

P.M. Gives Rules For Rural Routes

Postmaster Roy Kufalk has appealed to postal customers on rural routes to help their rural carriers make mail deliveries during bad winter weather.

The Antioch post office has five rural routes, covering the general area of Antioch Township.

Mr. Kufalk said that at the same time he hopes all authorities concerned with rural routes where snow and other bad weather hampers the carriers will continue to cooperate to help the mailmen get through.

The Postmaster listed these points of particular concern:

1. Approaches to rural mail boxes must be kept open by customers.

2. Obstructions to delivery of mail on rural routes should be removed or minimized to the fullest extent possible.

Where rural boxes pose a problem, the carrier may leave form 4056, "Your Mailbox Needs Attention," a notice to keep box approaches clear by promptly removing all obstructions, including snow, which may make mail delivery difficult or impossible.

Unless approaches are cleared, it may be necessary to temporarily withhold delivery of mail, the Postmaster pointed out.

Rural carriers are not required to perform service on foot when roads cannot be traveled with the vehicles normally used, but they are expected to make every reasonable effort to serve as many of their patrons as possible without physical exertion or added financial cost, he explained.

If excessive detours are necessary to effect delivery of mail, customers should temporarily relocate their boxes on the new line of travel, arrange to receive their mail through other patrons' boxes, or make other arrangements for their mail until travel on the roads affected can be resumed.

Glenn Won't Run for Village Board Again

The familiar face of Ernie Glenn will be absent from the trustees' table at Village Board meetings after the April elections. Mr. Glenn, after 11 years on the board, says he will not seek the office again.

Glenn has been chairman of the sewer and water committee for some time.

First day for filing of petitions of nomination for village offices is January 25. Several petitions have already been taken out, according to village clerk Clarence Shultis.

The office of Mayor will be up for election this year, as will the village clerk and three seats on the village board. Village board members whose terms expire in April are Ernest Glenn, Roger Williams and Einar Petersen.

Glenn will not run again; Williams says he hasn't decided; Petersen is going to run for another term of office.

Mayor Murrill Cunningham refused to state his intentions. "It's too soon," he said.

Last day for filing of petitions is March 1. Candidates have five days after this date to withdraw their candidacy.

Rep. Connolly To Speak To Blind

Members of the Lake County Blind Association will hear State Representative John Connolly speak at a meeting of the organization at the Bien Venue in Libertyville on January 10 at 3 p.m.

Albert Breen, publicity chairman of the blind association, invites all blind or partially blind persons to attend the meeting.

Bid on New Well, Sewer; Plan New Bldg. in Plaza

Ace Hardware, now located at the corner of Route 50 and 173, will move to a new building in the Antioch Shopping Plaza on Orchard and Broadway.

A permit to construct the new 12,000 square foot building was approved at a meeting of the Antioch Village Board Tuesday night, January 5. Date of completion of construction of the new building is undetermined.

The IGA Food Store, located next door to Ace Hardware at Routes 50 and 173, may add the vacated Ace Store to its facilities. Gardner Mallory, owner of the IGA, confirmed rumors that

he is negotiating for a lease on the vacated store. He would like to have the present Ace Store, Mallory said, and remodel to make one large store of the present IGA and Ace stores.

WATER BILL SETTLEMENT PROTESTED

Trustee Ernest Glenn stirred some heated protests from citizen water-bill payers in the audience when he proposed settling a disputed water bill owed by George Kennedy Co. in the amount of \$454 for \$50. Glenn and David Nissen said they had investigated the bill and felt sure it was an error. They recommended settlement of

the bill for \$50. The bill was tabled and a committee of Glenn, Einar Petersen and Nissen instructed to investigate further.

BIDS ON SEWERS AND NEW WELL

A motion was approved to advertise for bids for construction of sewer mains on Harden and Victoria Sts., the bids to be opened at 8 p.m. on February 2.

The clerk was also authorized to advertise for bids on a new well for Antioch, 150 feet deep, with a guaranteed production of 600 gallons a minute. The village engineer informed the board that plans for a filtration plant

could not be decided until the well was completed.

The type of filtration could not be decided until tests are made on the water from the new well, the engineer said. One method would involve open-air aeration and would necessitate chlorination of the water. The alternate method, which might not be practical if the iron content is too high, would not involve exposure to the open air and no chlorination.

There was some discussion of widening and repaving Lake St. The village engineer was instructed to determine the amount to which the state would participate in the project.

Permission was given for the Antioch Woman's Club to put up drapes in the Scout House, and the clerk authorized to write them a letter of thanks.

Ray Toft, chairman of the police committee, announced that December police records included 30 parking violations, 24 moving traffic violations, 20 accidents and 7 cases of petty larceny.

Toft asked permission of the board to order the Chicago Police Department Daily Bulletin for use of Antioch police. It includes lists of stolen cars, pictures of wanted men in the area, etc.

Toft also asked the board to approve hiring Vivian Mapleshorpe of the Antioch Answering Service to handle police radio calls from 9 a.m. to 5 p.m., seven days a week. Calls from 5 p.m. to 9 a.m. would be handled by Chief Walter Scott.

Edgar Simonsen relayed a complaint from Mrs. Elmer Baethke, who fell on the sidewalk on Lake St., shortly before Christmas and bruised her knees and tore her clothing. Attorney Jacobs advised that the matter should be turned over to the insurance company.

Squad Logs 332 Calls In 1964

The Antioch Rescue Squad answered 332 calls in 1964, 2,598 radio transmissions were made and the squad was out on calls 335 hours and 5 minutes. The figures come from the Antioch Answering Service, who handle the calls and keep records of them.

Figuring 2 1/2 men per squad call (the average) and adding ten minutes each trip to clean up the truck and replace supplies, the squad put in about 1,000 man hours last year in active service.

This, of course, is in addition to the hours put in at meetings, classes and work at the squad headquarters.

Calls made each month were: January, 25; February, 21; March, 21; April, 18; May, 28; June, 22; July, 41; August, 46; September, 24; October, 23; November, 27 and December, 36.

As might be expected, July and August were the high months in number of calls handled. This is when the Lakes area has its heaviest traffic and population.

December calls ran a close second to the two busiest months last year.

The calls listed include some false alarms, where it was discovered the squad was not needed, and cover emergencies from a plane wreck to helping lift aged and disabled persons back into bed. The squad has aided innumerable persons involved in traffic accidents, including those injured in a bus accident on Skokie Highway. A few "nuisance" calls are weeded out by the Answering Service, where the services of the squad are not actually needed. These calls are not counted, as the squad doesn't go out.

Can Dial Long Distance Calls Direct Now

A new, faster way of dialing from pay telephones in the Antioch area to phones in Chicago and many of its suburbs will be put into service January 14, by Illinois Bell Telephone. Coin phones affected will be those with telephone numbers beginning "395" and "396."

Telephone men will begin installing new instruction cards in phone booths and at other coin phone locations, according to R. C. Miller, Illinois Bell local manager. He said telephone equipment has already been adapted for the new service.

With the new method, a caller deposits his line and dials the number he wants. If any more money is needed, an operator will come on the line before the call goes through and ask for the additional coins.

The old system required callers to dial "Operator" for all calls costing more than 10 cents.

Information and long distance operators will continue to provide service as before, and a coin telephone user still will be able to dial the operator for help in completing a call.

Suburbs which can be dialed direct under the new system include communities north to the Wisconsin border, as far south as Chicago Heights and as far southwest as Aurora.

Dies In New Year's Eve Fire

Mrs. Susan Craig, 30, of Fox Lake, died Thursday night in a fire at the home of her brother in Oak Lawn.

William Craig, the dead woman's husband, is owner of the Ten Pin Grill at the Antioch Bowl. His hands were cut in an attempt to break an upstairs window to get to her.

The brother, Byron Nelson, 42; and his wife, Mary Ann, 33, were seriously burned.

Mrs. Craig was the mother of three small children. Funeral services were held in Chicago Monday.

Fire Demolishes Car At Channel Lake

Fire demolished a 1954 Cadillac on Grapevine Ave. at Channel Lake Tuesday night, Jan. 5.

The Antioch Fire Dept., called to the scene about 9:30 p.m., extinguished the fire. Probable cause of the blaze, according to firemen, was gas fumes from the flooded carburetor, and the fact that the air filter had been removed from the car.

The car belonged to Tom Brown, 31 Gillead, Zion. It was being driven by Bill Underwood, Waukegan.

Before driving your car early in the morning, take time to clear moisture and frost from the windshield and rear window. Good visibility is essential to safe driving.

Former Resident of Antioch Dies

A former resident of Antioch, Leonora Hughes Boycheff, passed away Tuesday, Jan. 5, in Highland Park.

Mrs. Boycheff was 95 years old at the time of her death. She had moved to Antioch in 1912 and lived here about 20 years. She was a pioneer telephone operator in the Antioch exchange.

News of her death came from her son, Harold Hughes, Highland Park. Mrs. Boycheff is survived only by her son and his wife.

Mrs. Boycheff had lived in Syracuse, New York, until her husband died two years ago. At that time, she joined her son in Highland Park, and had lived in a nursing home for the last two years. Private services will be held in Chicago.

Total Building In Antioch In 1964

Total construction in the village of Antioch in 1964 amounted to \$893,655.00, Clerk Clarence Shultis announced at Tuesday night's meeting of the village board.

Of this, residences accounted for \$249,505.00; Apartments (5 units) \$52,000; Industry, \$292,825.00; Business, \$208,800.00; Church, \$23,000.00; High School, field house, \$23,000.00; private garages, \$20,758.60, and alterations to residences, \$23,767.

C. C. Plans Annual Dinner Dance

A gay and festive evening is being planned by the Antioch Chamber of Commerce for January 30. This is the night of the Chamber's annual dinner-dance and installation of officers.

The party will be held at Lorenz's Smart Country House. Final plans are not completed. Tickets can be obtained from the Chamber office or from officers of the organization.

Disclose Identity of Helpful Passerby

A story in last week's Antioch News told of an early-morning fire at Channel Lake. An unknown motorist had seen the smoke, stopped and awakened the sleeping family and gone on his way without disclosing his identity.

The helpful motorist, we discover, was Roger O'Connor, 55 Grapevine Ave. at Channel Lake.

Announce Driver License Action

The office of the secretary of state announces the suspension of the driver's license of Ralph R. Giltmeier, Rt. 1, Box 635, Antioch, following three traffic violations.

NICKEL CAST IRONS

Nickel is the most widely used element in the production of alloy cast irons. Addition of nickel to cast irons helps to harden and strengthen the casting and increases its denseness and pressure tightness.

S&L Reports Growth In '64

Another year of progress and growth was enjoyed by the Antioch Savings and Loan Association during 1964, according to the institution's annual report issued today.

Dr. John C. Vermeren, President of Antioch Savings, said that asset growth of \$2,126,926.00 during 1964 represented a 28.2% increase over total assets held one year ago, and that assets at the end of 1964 stood at \$9,666,883.00. Dr. Vermeren said that the growth reflected a combination of increases of mortgage loan and savings balances outstanding. He added that the balances of personal savings appear to have been stimulated materially by the reduction of Federal income taxes, effective last Spring.

Net savings gain at Antioch Savings in 1964 totaled \$2,027,325.00 bringing total savings held by the institution to \$8,227,025.00.

The Savings and Loan institution also reported record annual dividend payments during 1964 totaling \$309,908, based on current dividend rates.

In the annual report to the Antioch Savers, Dr. Vermeren commented, "Although business competition has been considerably more severe this past year, we are most pleased with the progress of our institution and its expanded services to this community."

Report Sales Taxes For Last Sept.

Springfield, Ill., Jan. 4—City sales taxes collected in September 1964 on August tax liability grossed \$5,699,770 and county sales taxes for the same period grossed \$392,543, the Illinois Department of Revenue reported today.

Collections from 1,180 cities and villages and 74 counties represent a tax of one-half per cent on retail sales in municipalities and parts of counties not in municipalities. Municipal Retailers' Occupation Tax and Municipal Service Occupation Tax are now reported by the department in one combined figure. Corresponding county taxes now are combined.

Gross collections from cities and villages were reduced by \$226,698, the state's 4% administration charge. Payments made under protest and withheld amounted to \$32,323. The net amount certified for cities and villages was \$5,400,750.

Sales taxes for the village of Antioch in this period (less 4% administration expense) were \$6,056.51; Fox Lake, \$6,875.65; Lake Villa, \$1,334.04; Grayslake, \$2,884.08. Lake County, in the same period, collected \$19,344.22.

The crosswalk is the safest place to cross any street. Jaywalking only adds to the confusion and hinders traffic flow. Cross where motorists are aware of you—at crosswalks.

Adds Theatre To Holdings

I. C. Rhyen, who operates the newly re-modeled Antioch Theatre and the Family Outdoor Theatre at Grayslake, has taken over the general management of the Liberty Theatre at 708 N. Milwaukee Ave. in Libertyville.

Extensive plans are being formulated to re-decorate and remodel the premises. The theatre will remain open while the work is being done.

Resident manager of the theatre will be Delbert Coe, 309 Grant, Libertyville.

Rhyen said it will be the policy of the theatre to serve the best interests of the community by showing the newest of Hollywood's better pictures as is being done at the other two theatres under his management. The opening program for the new ownership will be "The Disorderly Orderly" in color, starting Jan. 10 and running through Thursday, Jan. 14.

Deadline For 1965 Plates February 15

Springfield, Ill.—With the holiday season now past, Secretary of State William H. Chamberlain today reminded motorists that the deadline for displaying 1965 license plates on their motor vehicles is now only six weeks away.

Midnight February 15 is the deadline for having the current plates mounted on the vehicles, not merely a deadline to having submitted applications. Mr. Chamberlain emphasized. Since about two weeks are required during the rush period for processing applications, motorists applying by mail must have their applications in the Secretary of State's office by February 1 to be sure of having their plates in time, he said.

So far this season, only about 1,100,000 applications have been received, 10,000 fewer than at the same time a year ago, Secretary Chamberlain said. The total for the year is expected to be about 4,000,000.

Channel Lake School Annex Is Approved

No opposition to the petition to annex the Channel Lake School District to the Antioch Grade School District was voiced at the hearing held Monday night, January 4, at the county courthouse in Waukegan.

The Lake County School Board of Trustees approved the annexation petition, Channel Lake School District No. 35 will officially join the

Antioch District July 1, 1965. It will not be necessary, however, for Channel Lake to elect a new board to carry on until July, Dr. W. C. Petty said. The present board will carry on administrative duties until July 1.

Plans are for Channel Lake School to house Kindergarten through sixth grade. The upper two grades will be transported to Antioch Grade School.

ACHS Board Hopes To Avoid Costly Deficit Financing

"We're not doing any deficit financing yet," Superintendent Albert Dittman said, discussing the need for a raise in the educational tax for Antioch High School. "We hope, by getting an increase in the tax now, to avoid the expense of such financing."

The Board of Education has called for a referendum requesting a 15c increase in the educational tax for the High School. This would raise the tax from the present 75c per \$100 of assessed valuation to 90c per \$100.

At present, Dittman said, considerable jockeying of accounts is necessary to avoid borrowing money. Money borrowed from other school funds to supplement the educational fund must be repaid. "It's a little like installment buying," Dittman pointed out. "The amounts get larger and larger, and it gets harder and harder to pay it back."

If the 15c increase is approved by voters, the tax will not be levied until September of 1965. The first income from the increased tax will be available to the school in the 1966-67 school year.

Both Mr. Dittman and William Brook, chairman of the finance committee, said that

this is probably the deadline for the time in which the school can continue to operate on its present income without borrowing money. Once the school is forced to go into deficit financing, Brook pointed out, it will be an increasing struggle to get the school's finances back on a sound basis, with interest costs eating up any raise in the tax monies.

Along with the rising costs of supplies, teachers' salaries, etc., is the constantly increasing enrollment of the school. This means that each year the assessed valuation per pupil is smaller.

Although the assessed valuation of the township has increased, it has not kept pace with the pupil increase. A sizeable increase in industrial development would hold the only hope of boosting the tax intake. An increase in residential building does little good, as new homes mean more students.

In 1958, Antioch High School had 658 students; in 1963, 930 were enrolled.

The assessed valuation of the District in 1958 was \$50,225,139.00; in 1963, assessed valuation was \$60,369,891.00.

The percentage increase of student population in the

five-year period was about 30%; percentage increase of the assessed valuation in the five-year period was about 16 1/2%. It is readily obvious that assessed valuation is steadily falling behind student enrollment.

The assessed valuation per pupil in 1958 was \$88.655; in spite of the increase in assessment values since that year, the assessed valuation per pupil has steadily dropped in the last five years. This year it is \$69.863.

At present, only three of Lake County's high schools have lower educational tax rates than Antioch—Waukegan, Lake Forest and Warren. The assessed valuation of Waukegan and Lake Forest are so much higher than Antioch's that the districts are hardly comparable. Warren, with a .699 rate (70c in round figures) has an assessed valuation of \$42,754,132. Total assessed valuation of the Antioch High School District for 1963 was \$56,386,180.00.

In comparison, the educational tax rate of the Round Lake High School district is \$1.12; Grant, 96c; Elmhurst, 85c, and Grayslake, \$1.21. The referendum will be voted on January 23, 1965.

EDITORIAL

More Taxes In 1965

Both the U. S. Congress and the Illinois Legislature convened this week. And both will be busy considering new measures to take more money out of the paycheck of Mr. Average Taxpayer.

Congress will be considering Medicare, higher social security payments, and measures to further the war on poverty.

If social security is to be of any real value, it seems as though congress will have to find a way to gear the payments to the cost of living. The man who has worked long years paying into the program, only to find the retirement pay he figured on reduced to a pittance by inflation, has a right to feel bitter. The money he paid into the program had a much greater purchasing power than the dollars he now receives.

Unfortunately, it seems as though the same thing is bound to happen to any Medicare program. No matter how worthy the cause, how much tax pressure can the overburdened wage-earner stand?

The need for a national Medicare program could be removed if communities would measure up their responsibility. County hospitals were instituted to care for the needy poor. So is the local fund for care of the needy. If each area in the nation shouldered its own responsibility in this matter, there would be no need for a national Medicare program. Local administration of such programs is always cheaper than a Federal program.

The local politician who would advocate such a program would quickly lose his office when costs of aiding the poor went up. So, instead, a faraway Congressman, more remote from the pressure of the local voter, can vote to spend more of the taxpayer's money without the threat of removal from office.

Whether or not Medicare makes it through Congress this session, education seems sure to take a bigger bite of both state and Federal funds. Adlai Stevenson III is already advocating a flat 1c sales tax raise to go to education. A state income tax and a tax on service occupations will be under consideration for bringing more money in to the state coffers.

That delightful reduction of the income tax which looked so good last spring may seem like a will-o'-the-wisp by the time our state and Federal legislative bodies get through coping with the country's problems.

Your Congressman Reports...

The Johnson Administration has a splendid opportunity to carry out a much-needed program to streamline and reorganize the Congress of the United States. Many of the practices followed today in the U.S. House of Representatives antedate the formation of our Federal system in 1789. Indeed, Jefferson's Manual (developed when he presided over the Senate from 1797-1801 as Vice President) governs a large part of today's proceedings of the U. S. House and Senate.

Much of the procedure and most of the House and Senate Rules are highly desirable in performing the deliberative functions of the Congressional machinery. It is antiquated, burdensome and destructive of the Legislative Branch itself.

First and foremost among the handicaps to effective Congressional action is the lack of control over fiscal matters. Notwithstanding the Constitutional prerogatives of the U. S. House with respect to Federal revenues and expenditures, the House "struggles" with scratch pad and pencil while the Executive Branch is aided by computers and automatic data processing equipment.

Another area requiring immediate attention is the staffing of Congressional committees and Congressional offices. This matter is of particular importance insofar as minority staff personnel is concerned. The small numbers of Republican members in the House and Senate are nevertheless important to the perpetuation of our two-party system. A vocal and constructive minority can operate effectively only when the minority positions are fully and clearly set forth. Competent staffs in sufficient numbers are essential in this respect.

The Reorganization Act of 1946 was intended to correct the Congressional deficiencies in fiscal management, committee structure and Congressional staffing. The reorganization attempted may have been adequate for 1946, but not for 1965. A bipartisan Congressional committee composed of equal numbers of Republicans and Democrats could develop the kind of Congressional framework from which more enlightened, expeditious and effective legislative service might be rendered. Senator A. C. "Mike" Monroney of Oklahoma has proposed such action in the Senate and the writer has introduced a similar measure in the House.

Although much may be said in behalf of revising the Senate's rule which permits unlimited debate (filibusters), much can also be said in support of permitting fuller debate in the House. While the Democratic minority has been considerate in allotting time for Republican Members to present arguments on pending measures, a general rule which granted equal time for presenting majority and minority positions would seem highly desirable. This should apply to debates on final passage as well as in the consideration of amendments and conference committee reports.

Another subject deserving attention is the length of the sessions of Congress. The first session of the last (88th) Congress extended from January 7 to December 24, 1963. The second session did not adjourn until October 3, 1964, just one month before the general election. Shorter sessions would seem to be desirable if the Members of Congress are to handle their responsibilities more expeditiously.

Still another reform which merits the most careful consideration concerns Members of Congress in their non-legislative duties. Those important and time-consuming services could be handled much more efficiently than at present, and the time saved could then be devoted to more thorough consideration of issues and closer attention to committee work. Worthy of consideration is the appointment of an "ombudsman," a sort of service officer who could handle directly the service requests addressed to Members of the Congress. Such an official is provided for in the Swedish system and has been recommended recently for members of the British Parliament.

These are but a few of the changes which might improve the operations of the United States Congress and are among those that may be considered if a bipartisan commission is established by a concurrent resolution of the U. S. House and Senate in the 89th Congress.

ALONG THE WAY with Annie Mae

As I peer through my nasal mist, and gurgle my cough syrup while I reach for another Kleenex, I'm ready to confess that 1965 so far hasn't lived up to any great expectations. I suppose there are those who sigh with relief at this 40 degree weather, but there are also those of us who believe that an old-fashioned winter with a little "nose-nipping" (temperatures, and even a little of that white ground cover, would be healthier, prettier, and more like what a mid-west winter should be.

THE LATEST REPORT: Could be that's why Roy Kufalk took a few days vacation for his immunization shots or boosters soon may no longer be the fearful, unpleasant task it once was thanks to a new method of "inhaling" a vaccination.

This new, painless aerosol method — currently being tried with antituberculosis vaccine at the University of Illinois Institute for Tuberculosis Research — can safely and effectively immunize up to a dozen children at once.

With this technique, the children are placed in a single room. The vaccine material is put into a portable nebulizer and pumped through tubes bored through one wall of the room, filling it with a fine, colorless spray of vaccine.

The youngsters — who may play, read or study during the process — breathe the vaporized vaccine for up to one-half hour. Their lungs absorb sufficient vaccine to build effective immunity levels in the bloodstream.

After the "vaccination" is completed, an exhaust fan blows out the vaccine-filled air and replaces it with normal air.

Although this technique was originated a few years ago by the Russians to immunize against a fever condition called brucellosis, it was perfected for the first time this year at the University of Illinois. According to Dr. Sol Roy Rosenthal and Alonzo H. Kennelbrow of the University, vapor vaccination might soon work for the entire gamut of childhood immunizations: Asian flu, diphtheria, tetanus, whooping cough, smallpox, measles and polio.

"In addition to being painless, this method can be employed in school classrooms or in playrooms to eliminate altogether the traumatic experience of a visit to the doctor's office," Dr. Rosenthal declared. Aside from this nerve-sparing advantage to Mom and Dad, both doctors pointed out these medical advantages of the aerosol immunization method:

—No severe pain and stiffness of the arm as frequently occurs with booster immunizations for diphtheria, whooping cough and tetanus.

—No more vaccination scars.

—Reduced likelihood of sensitivity reactions—such as fainting and shock—from the injection of foreign proteins contained in the vaccines.

Does the inhalation method provide any advantage over the new oral vaccines? "Medically speaking, no," admits Dr. Rosenthal, "but there is an added advantage for Junior—no unpleasant after-taste."

Safeguard Your Health

COMING — VAPOR VACCINATION

Parents take heart! Dragging Junior off to the doctor for his immunization shots or boosters soon may no longer be the fearful, unpleasant task it once was thanks to a new method of "inhaling" a vaccination.

This new, painless aerosol method — currently being tried with antituberculosis vaccine at the University of Illinois Institute for Tuberculosis Research — can safely and effectively immunize up to a dozen children at once.

With this technique, the children are placed in a single room. The vaccine material is put into a portable nebulizer and pumped through tubes bored through one wall of the room, filling it with a fine, colorless spray of vaccine.

The youngsters — who may play, read or study during the process — breathe the vaporized vaccine for up to one-half hour. Their lungs absorb sufficient vaccine to build effective immunity levels in the bloodstream.

After the "vaccination" is completed, an exhaust fan blows out the vaccine-filled air and replaces it with normal air.

Although this technique was originated a few years ago by the Russians to immunize against a fever condition called brucellosis, it was perfected for the first time this year at the University of Illinois. According to Dr. Sol Roy Rosenthal and Alonzo H. Kennelbrow of the University, vapor vaccination might soon work for the entire gamut of childhood immunizations: Asian flu, diphtheria, tetanus, whooping cough, smallpox, measles and polio.

"In addition to being painless, this method can be employed in school classrooms or in playrooms to eliminate altogether the traumatic experience of a visit to the doctor's office," Dr. Rosenthal declared. Aside from this nerve-sparing advantage to Mom and Dad, both doctors pointed out these medical advantages of the aerosol immunization method:

—No severe pain and stiffness of the arm as frequently occurs with booster immunizations for diphtheria, whooping cough and tetanus.

—No more vaccination scars.

—Reduced likelihood of sensitivity reactions—such as fainting and shock—from the injection of foreign proteins contained in the vaccines.

Does the inhalation method provide any advantage over the new oral vaccines? "Medically speaking, no," admits Dr. Rosenthal, "but there is an added advantage for Junior—no unpleasant after-taste."

Drop Outs To Get Training In Job Corps

Young men and women who are unemployed and have no skills are prospective enrollees in the Job Corps.

Job Corps centers are being set up in thirty states as a part of the President's war on poverty. Some centers will be set up on public lands operated by conservation agencies such as the Department of Agriculture and Interior. Others will be in unused federal government facilities near metropolitan areas.

The Job Corps is aimed specifically at one million young people who have not completed secondary education, who have been unable to find a satisfactory job, and whose reading and arithmetic skills range from the 4th to the 7th grade levels.

About 40,000 young men and women, from all sections of America, can be enrolled in the first year and 100,000 in the second year. They will come from rural and urban areas.

Enrollees will be assigned, as far as possible, to training that fits their interests and aptitudes. A variety of skills will be taught, ranging from work in conservation to carpentry, masonry, printing and typing. In addition, there will be courses in basic education such as arithmetic, reading, writing and speaking.

Congress has authorized that corps members be paid a "terminal allowance" of \$50 for every month they have spent in the corps. Up to \$25 of this amount may be allotted to a dependent, and the government will match such allotments with equal amount. The trainee will receive \$30 a month pocket money, room, board and his clothing.

Good visibility is essential for safe driving. Before starting to drive make sure your front and rear windshields and side windows are clear of obstructions. Make sure the windshield wipers and defrosters are in perfect mechanical condition. And always carry an ice scraper in your glove compartment. "Peephole" driving can be fatal.

Plymouth Valiant: \$2004*

Valiant 100 2-dr. sedan

The full price is low.
The down payment is low.
The monthly payment is low.
The day-to-day costs, like gas and oil, are low.

See. Valiant really is the compact that hasn't forgotten why you buy a compact.
Have you?

Valiant's also the lowest-priced car made in America with this 5-year/50,000-mile engine and drive train warranty:

Chrysler Corporation confidently warrants all of the following vital parts of its 1965 cars for 5 years or 50,000 miles, whichever comes first, during which time any such parts that prove defective in material and workmanship will be replaced or repaired at a Chrysler Motors Corporation Authorized Dealer's place of business without charge for such parts or labor: engine block, head and internal parts, intake manifold, water pump, transmission case and internal parts (excepting manual clutch), torque converter, drive shaft, universal joints, rear axle and differential and rear wheel bearings. Required maintenance: The following maintenance services are required under the warranty—change engine oil every 3 months or 4,000 miles, whichever comes first; replace oil filter every second oil change; clean carburetor air filter every 6 months and replace it every 2 years; and every 6 months furnish evidence of this required service to a Chrysler Motors Corporation Authorized Dealer and request him to certify receipt of such evidence and your car's mileage. Simple enough for such important protection.

*Price based on Manufacturer's Suggested Retail Price for lowest-priced Valiant 100 2-dr. sedan, exclusive of destination charges, state and local taxes, if any, wheel covers, and other optional equipment.

Courthouse Notebook

BY LOU DURKIN

The final week of 1964 and the opening days of 1965 presented some interesting live action commentaries on the American scene as offered by the sports section of said scene.

The pursuit of pleasure and thrills is an important part of the American scene today and the fact that satisfying this pursuit is akin to having a key to Fort Knox was proven by the staggering amounts professional sports promoters are willing to pay collegiate gladiators to get them to wear the golden raiment of Big Buck U.

A contract calling for more than \$400,000 is reportedly offered a 21 year old college student for three years of pro football proving that the young undergraduate learned his lesson well during the hectic recruiting that preceded his matriculation at the college of his choice.

While the wages he will be able to command during the time he is proving himself worthy of the company of Johnny Unitas, Jim Brown, Jim Taylor and other stars of the golden gridiron are considerably more than he earned in college, this is really a question of economics rather than ethics.

The real commentary on the frantic search for the fast buck is found in the story of the college athletes declared ineligible for their final college game because they have already signed professional contracts.

There are cynics, of course, who will say they became professionals when they entered college to play big-time football and that it matters little if they sign in advance to play for open checks instead of under the table unmarked cash.

These kids, of course, were exposed to the hypocrisy of big-time sports before they received their high school diplomas, and it is perhaps asking too much of them to honor whatever commitments they might have to the colleges that exposed them, however inadequately, to higher education.

Still, it would seem that the owners of professional football teams who like to call themselves sportsmen, would make some attempt to honor the agreements they have with their farm clubs, sometimes known as universities, colleges, and institutions of higher learning.

And it would seem that sometime during four years of association with those stellar builders of characters the football coaches, that these muscular flowers of American manhood would learn something of the sanctity of a contract, some conception of what is right and wrong in bargaining with a prospective employer, some reminder that a man's word and his handshake are supposed to be sacred.

The moss-covered cliches used by defenders of the inter-collegiate sports picture

sound rather hollow when teamwork becomes equated with having your agent play one offer against the offers of another team, which sacrifice means sacrificing your team's chance of victory to get your own name on the dotted line, when initiative means signing every contract offered and then taking the one that looks best at the last minute.

Of course, college sports are not alone in this mockery of the word sportsmanship. The owners of the once proud Milwaukee Braves can hold their own with any group of brigands when it comes to double-talk and double-dealing, with one-sided interpretations of contracts, and with determined seeking of the sports dollar.

Any city that is so foolhardy as to build a sports arena today for privately owned athletic teams that have no regard for the city in which they are located other than the music of the whirling turnstiles is asking for a rebellion by the peasants.

Despite long-standing membership in the sports buff club, I would join the ACT before submitting to the construction of a sports stadium that was to be paid for with revenues of professional teams who could pick up their toys and move whenever the mood seized them, which of course would be the first time the fans decided that they wanted major league entertainment for major league prices.

And now back to the television set to watch the final offerings of the football season.

DEATH NOTICES

MRS. ROSE DOLAR

Mrs. Rose Dolar, 78 years old of Antioch, passed away on Tuesday, January 5, at 3:00 p.m. in her home in Grand View Subdivision on Lake Catherine after a lingering illness. She was born Dec. 16, 1891 in Chicago where she resided until moving to Antioch 20 years ago. She is a member and past mistress of Cleveland Chapter Order of Eastern Star in Chicago. She married Otto Dolar on June 22, 1911 in Chicago.

Survivors are the husband, Otto, a son Elmer O. Dolar, Lyons, Ill., a sister, Mrs. Joseph (Charlotte) Schleicher, Cleora, and three grandchildren.

Funeral services are tentatively set for Friday afternoon in the Tower Home for Funerals at 4007 Joliet Ave., Lyons. Interment will be in Mt. Auburn Cemetery at Stickney. Local arrangements were made by the Strang Funeral Home.

MRS. MARIE McNEILL

Mrs. Marie McNeill, 88 years old of Rollins Road, Lake Villa, passed away on Sunday, January 3, at 5:00 a.m. in Kendall Memorial Hospital at Libertyville, after a lingering illness. She was born February 26, 1876 in Bellaghy (County of Derry), Ireland, and came to America in 1895 to reside in Chicago until moving to the farm on Rollins Road 57 years ago where she spent the remainder of her life. She had attended the United Protestant Church at Grayslake. She married Francis McNeill on May 12, 1901 at Chicago and he preceded her in death on February 20, 1946. Two infants and a son, Francis McNeill, Jr., preceded her in death also.

Survivors are three sons, James, Roy and Russell, all of Lake Villa, and four grandchildren.

Funeral services were held from the Strang Funeral Home in Antioch at 2 p.m. Tuesday, January 5. Rev. Draper Bishop of the United Protestant Church officiated at the services. Interment was in Avon Cemetery near Grayslake.

JOHN LOFQUIST

Mr. John Lofquist, 82 years old of Center Lake Woods

Subdivision near Camp Lake, Wis., passed away on Monday, January 4, at 10:20 a.m. in Kenosha Memorial Hospital after being ill since October 1944.

He was born Feb. 24, 1862, at Vesterstad, Sweden, and came to America in 1911 to reside in Chicago, until moving to Elmhurst in 1948. He had moved to Center Lake Woods Subd. in 1953. Mr. Lofquist retired in 1947 after working 38 years at the International Harvester Co. in Chicago area.

He was preceded in death by his wife Edith (nee Erickson) on Jan. 5, 1944.

Survivors are a daughter, Mrs. Richard (Shirley) Zinke (Center Lake Woods Subd.), a sister, Mrs. Anna M. Ekander, Malmö, Sweden, and three grandchildren.

Funeral services were held at 3:00 p.m. today (Thursday) at the Strang Funeral Home in Antioch. Pastor Alvin Plinke of Christ Lutheran Church at Paddock Lake officiated at the services. Interment was in Liberty Cemetery north of Antioch.

MRS. ANNA M. PEDERSEN

Mrs. Anna M. Pedersen, 86 years old of 328 Depot St., Antioch, passed away Wednesday, Dec. 30, at 3:15 p.m. in her home after a lengthy illness. She was born April 4, 1878 in Koge, Denmark, and came to America in 1948 to reside in Antioch. She was preceded in death by her husband, Thorvald Pedersen, on Feb. 9, 1956, and a son, Axel Pedersen on July 15, 1944.

She is survived by three sons, Albert Pedersen (who is owner of the Pedersen Bakery in Antioch), Arnt and Alex Pedersen of Chicago, two daughters, Mrs. Edward (Agnes) Jensen, Morton Grove, Mrs. Einar (Anny) Johansson, Antioch, a brother, Christian Christiansen, Copenhagen, Denmark; 10 grandchildren and 23 great-grandchildren.

Funeral services were held at 3:00 p.m. Saturday, Jan. 2 at the Strang Funeral Home in Antioch. Rev. Wilton Anderson of St. Stephen Lutheran Church of Antioch officiated at the services.

BRIAN A. PALENSKE

Airman 2nd Class Brian A. Palenske, 21 years old of Channel Lake near Antioch, passed away Tuesday, Dec. 29, from injuries received in an automobile accident on Highway 79 about 10 miles

Hold Line On Truck Weights, Says Chicago Motor Club

Gerald W. Cavanagh, president of the Chicago Motor Club, in the December issue of the motor club publication, "Motor News," has urged that the line be held on truck sizes and weights if motorists already considerable investment in our street and highway network is to be protected.

Cavanagh pointed out that one of the major battles looming in the upcoming Congress will be over a recent Department of Commerce proposal to raise truck weight and size limits on Interstate Highways.

Under the Department of Commerce proposal, Cavanagh said, gross weight maximums on the Interstate System could go as high as 105,000 pounds in comparison to the present limit of 73,280 pounds, and truck widths could be increased from the present maximum of 96 inches to 102 inches.

Cavanagh wrote in "Motor News": "Aside from the safety risks involved in increasing truck dimensions, the additional cost to the motorist of paying for more heavily constructed highways, necessitated by increased truck weights, could be ruinous. Just what is the sense of throwing billions of dollars of hard earned motorists' tax money into streets and highways across the land and then permitting them to be pounded to pieces by oversize trucks?"

The American Association of State Highway Officials, in commenting on the continual increases in truck weights and sizes, has said, "Increased truck weights produce significant increases in highway construction and resurfacing costs."

Cavanagh noted that several years ago the AASHO was authorized to use highway user tax money to conduct tests in Ottawa, Ill., to determine the damage done to highways over a period of time by heavy vehicles. Despite the fact that the Ottawa tests were finished some time ago, he said, there has been no indication from Washington as to when these crucial findings will be released.

Purpose of the Ottawa study was to provide a firm, factual basis for gauging increased highway costs—both construction and maintenance—caused by heavy trucks. The Ottawa report, when released, should serve as a scientific approach to the problem of levying spe-

cial taxes on heavy commercial vehicles, the motor club president said. He added: "The firm position of the Chicago Motor Club and the American Automobile Association is that no truck weight increase be approved, if at all, until the Ottawa findings are released and truckers are assigned their full share of the additional cost of the damage they will do to the Interstate system."

"From the safety standpoint, however, there can be no compromise. Any further increase in truck size can only add to the hazards of high-speed travel on our new freeways."

Miss Ethelwyn Ann Hrdina

Plan Wedding In Spring

Dr. and Mrs. J. L. Hrdina of Riverside, Illinois, announce the engagement of their daughter, Ethelwyn Ann, to Mr. M. David Cain of McHenry. He is the son of Mr. and Mrs. M. C. Cain of Beaver Dam, Wisconsin, formerly of Antioch.

Miss Hrdina attended Beloit College and graduated from Northwestern University in 1962. She is now teaching fourth grade in Northbrook.

Mr. Cain graduated from Northwestern University with a degree in Business Administration. He earned his C.P.A. certificate in 1962 and is a partner in the accounting firm of Jeddle and Cain in Antioch. He is also attending John Marshall Law School in Chicago.

A spring wedding is planned.

Campus News

MUSIC MAJOR IS STUDENT TEACHER

Marcia Kulp, a senior music major at Dominican College, Racine, Wis., has been student teaching recently in the Oak Creek School system, in the elementary, junior high and senior high school areas.

During the month of December, Miss Kulp conducted the band in Christmas concerts at the Oak Creek Junior and Senior High schools. She conducted both the Junior and Senior high school bands, at Oak Creek Senior high school in the Winter Music Concert.

She also played in the Christmas Concert with the Dominican College band and with Marquette University Band in Milwaukee.

Marcia is the daughter of Mr. and Mrs. Marcel Kulp of Antioch.

Where The Boys Are

USS JOHN WILLIS (DE-1027) (FHTNC) Dec. 18—Machinist's Mate Fireman Apprentice George P. Wilson, USN, son of Mr. and Mrs. Bert H. Wilson of Route 2, Antioch, has returned to Newport, R. I., aboard the destroyer escort USS John Willis, completing an extended tour of duty in South American waters.

Engaged

Mr. and Mrs. Morris Pickus of Antioch announce the engagement of their daughter, Sonya, to Mr. Alan Garfunkel, the son of Mr. and Mrs. Bernard D. Garfunkel of Chicago.

Miss Pickus is a graduate of the University of Michigan and did graduate work at Northwestern University. Her fiancé received his bachelor's and master's degrees from the University of Illinois.

A July wedding has been planned.

RETURNS TO GREENCASTLE
Mrs. H. E. Shepard returned to Greencastle, Ind., Sunday after a two weeks vacation in Antioch.

A highway sign in North Haven, Conn., says: "Driver who has one for the road has state trooper as chaser."

St. Stephen's Starts Sunday School Class

Sunday, Jan. 10, is the date set for the beginning of the Sunday Church School of the new St. Stephen Lutheran Church, Antioch. Classes will be available for children from ages 3 up through the high school age level and will begin at 10:45 a.m. Adult inquiry class will begin on January 17, 10:45 a.m.

The teaching staff is made up of Mrs. Darold Daluge, Miss Siv Hagg, Mr. and Mrs. Henry Skogstad, Mr. James McMillon, and Miss Mary Jean Baehler, with Mrs. John Skurdanis and Mrs. E. Witt as substitutes. More teachers will be secured as need arises.

The group is also organizing a church choir under the direction of Mrs. Lirten Jones, pianist. The choir will meet Wednesday, 7:30 p.m. at the parsonage, 566 Highland Avenue.

The choir will assist in Divine Worship presently being held at 9:30 a.m. in the Antioch High School cafeteria. A nursery for children ages six and under is available during the service. Mrs. Jerome Kitterman is in charge.

There has been a good response from the people of Antioch in support of the new church, even though formal organization will not take place until the first of May. Persons interested in the new fellowship are encouraged to call Pastor Wilton Anderson at 395-1822 or to visit on Sunday mornings.

Announces Engagement

Mr. and Mrs. Horst K. Duferin, Rt. 1, Bristol, Wisconsin, announce the engagement of their daughter, Geraldine Irene, to Mr. Paul Richard Schindel, son of Mr. and Mrs. Paul J. Schindel, of Bristol. The wedding date has been planned for May 8.

Both young folk are graduates of Salem Central High School. Mr. Schindel attended the University of Wisconsin.

SELECT ADVISORY BOARD FOR ORDER OF RAINBOW
The annual meeting of the interested Masons and Eastern Stars to elect a new advisory board for the Order of the Rainbow for Girls, Antioch Assembly No. 23 was held on Sunday.

The members of the Advisory Board for 1965 are Roy Lokke, chairman, Mrs. James Bruski, secretary, Mrs. Andrew Lorenz, Mrs. Wayne Polsgrove, Mrs. Amy Wells, Mrs. Robert Pincombe, James Williams, Robert E. Gaston, Harrison Brown, and Norvin Stoffel.

The new Advisory Board elected Mrs. Donald Gibbs to serve as Mother Advisor for the year 1965. This is the eighth successive year that Mrs. Gibbs has been elected to this office.

PATIENTS' AID SOCIETY MEETS JANUARY 11
The Patients' Aid Society of Countryside Hospital will meet Monday, January 11, at 7:30 p.m. in the Antioch Savings & Loan Building.

Further plans for a rummage sale will be discussed. Members are asked to bring their trading stamps. Refreshments will be served.

Ladies wishing to join the Society are invited to attend the meeting.

WESLEY EVENING CIRCLE TO MEET
The Wesley Evening Circle of the Antioch Methodist Church will meet at the home of Mrs. Arthur Meierdick on Thursday, January 14. Co-hostess will be Mrs. Wallace Anderson.

Devotions will be given by Mrs. James Erdmann. The program will be presented by Mrs. Leslie Sorenson (Race Relations).

None of us ever gets anything for nothing, but that doesn't keep us from trying.

Study Nursing Home Care

The director of nursing service at the Lake County Nursing Home, Mrs. Grace Myers, R. N., has returned from Peoria where she attended a special course in Rehabilitation Nursing at the St. Francis Hospital, Institute of Physical Medicine and Rehabilitation. Mrs. Myers has been the first nurse from any of the hospitals or nursing homes in Lake County to attend this training session.

The purpose of the course is to provide an opportunity for registered professional nurses to learn the philosophy, principles, concepts and techniques of rehabilitation nursing. One of its primary objectives is to promote practices of preventive aspects of rehabilitation nursing. It acquaints the nurse with the facilities and services other than nursing in total patient care—The Team Approach. The graduate of the course returns to her institution and transmits her knowledge and skill to her associates and thus improves the rehabilitation nursing care in their particular area.

The three week Rehabilitation Nursing course consists of lecture, discussion, demonstration, supervised practice, clinical experience, testing and follow-up. The nurses are given the opportunity to learn techniques for working with patients with hemiplegia, paraplegia, quadriplegia, poliomyelitis, amputees, and other severely disabling conditions. Special emphasis is given to the early care of the patient during the acute stages of his illness for preventing pressure areas, contractures and other complications that ultimately limit rehabilitation potential.

Registered professional Nursing Course may contact attending the Rehabilitation Nursing Course may contact the Institutional Nurse Consultant of the Lake County Health Department for complete information.

Psychology

The noted child psychologist had just finished laying his cement walk, when the neighbor's children raced in through the back gate and left ankle-deep tracks in his now ruined masterpiece.

He brandished a shovel and roared after them. "I thought you loved children, a neighbor tried to calm him.

"In the abstract, yes," he sputtered, "but not in the concrete."

LEAVES FOR CALIFORNIA

Mrs. C. R. Keulman left Antioch Sunday for San Diego, California, where she will visit her sister, Mrs. Louis Hale.

"CHRISTMAS IN FLORIDA"
The visitor really shook his head as he asked in the tropical sun.

"Call this Christmas to me he said, 'well, not where I come from.

Christmas needs snow and cold and the sound of sleigh bells ring. And as for me I can't be sold on this weather that feels like spring.

Santa Claus in a bathing suit? No sir, it just isn't right. Cranberry sauce and tropical fruit—I think it's an awful fright."

"My poor misguided friend," I said, "your lament does not ring true.

You're mixed up by things you've read, from a myth you take your cue. For no snow fell on Bethlehem on the night that the Christ Child came.

Hibiscus bloomed near the stable door as Mary murmured His name. Bougainvillea of vibrant hue arched its graceful bower, Poinsettias wet with mid-night dew enhanced that sacred hour.

The heavenly host in a starry sky proclaimed the birth of a King. And rustling palms echoed the cry as the whole earth seemed to sing.

So, we find here in this sun-drenched land (untouched by ice and snow) That the Spirit of Christmas is near at hand, And we feel God willed it so."

COLORING CROCKERY
Nickel oxide, in conjunction with iron, chromium and cobalt, is used to produce black, olive green, and brown colors in quality earthenware.

News of Lakesports

Expert Or Novice, Fishing Fans Flock To Ice Derby

Final preparations for the Northern Illinois Conservation Clubs 4th annual Ice Fishing Derby and Festival moved into high gear as categories and contests for winning the more than \$1,000 worth of prizes were established.

In the fish catching department, there will be a prize for the largest fish of the day caught; one for the smallest and one for the odd-est. Prizes will be awarded for the largest bluegill, sunfish, crappie, perch, bass and walleye caught every hour during the day-long event, and then for the first, second and third largest of each of these species caught during the whole day.

In a new innovation, club officials have set up 108 prizes for unlucky fishermen who can't catch fish. This is to provide the motivation for this kind of a fisherman to come out and cash in on his unique ability to produce an empty stringer.

The following contests, other than angling, have been set and include:

Guessing the weight of a block of ice.

Guessing how many live minnows are in a jar.

Fisherman with the most fishing rods.

Best dressed fisherman.

Oddest dressed fisherman.

Special Events

10 a.m.—Men's hole making contest, with ice chisel; Men's hole making contest with auger.

11 a.m.—Ladies' hole making contest, with auger.

11:30 a.m.—Children's fishing contest, up to age 16.

12:30 p.m.—Ladies' fishing contest.

1:00 p.m.—Men's fishing contest.

1:30 p.m.—Twist contest, girls.

1:45 p.m.—Twist contest, boys.

2:00 p.m.—Penny scramble on the ice—children up to age 6.

2:30 p.m.—Sack race, boys.

2:45 p.m.—Sack race, girls.

3:00 p.m.—Sack race, ladies.

Annual Match At Antioch Bowl Slated

Sunday, January 17, will be the date of the bowling match between the Old Fitzgerald team of Chicago and the Antioch All-Stars.

There is no charge for the exhibition match, but proceeds of a collection will go to the Antioch Rescue Squad.

The match will start at 1 p.m. at the Antioch Bowl, with the famous bowlers of the Old Fitzgerald team pitting their bowling skill against the five men with the highest averages in the Antioch Major league. The Antioch Majors bowl Friday night at the Antioch Bowl.

ONLY FIVE YEARS AGO....

... many diseases, now readily treated, were still a scientific enigma. In the ensuing short span of time, they have been explored and many conquered, with pharmacy's aid.

Wrestlers Avenge Loss In Win Over Warren

The Sequoia matmen avenged an earlier loss to Warren High Tuesday afternoon by beating the Blue Devils 24 to 18 on the Sequoia mats. The Soph squad lost their end of the match by one point 26 to 25.

The match was due to an open date in the schedule for both schools and will not count in the conference standings.

Winners for Antioch were Masaji Okubo, Jim and John Sheppard, John Patterson, Don Miller and Stan Revell. Revell and John Sheppard

are both undefeated for the season with records of 9-0. Okubo is 7 and 3 for the season.

The loss by the sophomores was due to Don Miller being moved up to the varsity. Miller won his varsity match and if he had wrestled at soph level the outcome would probably have been reversed. Miller competes in the 180 lb. division.

The Sequoia's next outing will be a home match against Elva-Vernon Saturday, January 9, at 4:15 p.m.

Roger Andrews, coach of the Antioch Basketball team, expressed his appreciation for the fine turnout of Antioch fans at the Rockford Classic Basketball Tournament last week.

Over 500 fans made the trip Saturday night to see their Sequoia defeat Boylan in the first game and Antioch was well represented with rooters during their second game Tuesday afternoon.

"The large number of spectators will help a great deal in getting us invited back next year," Andrews said.

Scouts Win Grayslake Holiday Tournament

The Lake Forest Scouts racked up their seventh straight victory Saturday night by defeating Niles East 59 to 42 in the finals of the Grayslake Holiday Tournament. The Scouts placed two of their squad on the all-Tourney team in capturing the tournament title.

Frank Barth and Bill Geraghty were both named to the first team and Larry Short of the Scouts made the second team all-tourney selections.

Lake Forest put on a pressing all court defense to stop the 'Trojans' offense. The Scouts pulled into a 31 to 20 halftime lead and increased it in the third period before Chuck McDermid went to his reserves in the final stanza.

Niles East out-scored the Lake Forest reserves 13 to 2 in the final period to cut the final margin to 17 points at 59 to 42. The Scouts' last defeat was at the hands of Antioch's Sequoia in a conference game December 12.

Grant High rallied in the final quarter with an 18 point spurt to gain a come-from-behind win over Grayslake 56 to 48 in the consolation game. Grayslake led at the end of the third period in the evening's opener 41 to 38 but the Bulldogs outscored them 18 to 7 in the final period for the win.

CROWN OF STEEL

A nickel stainless steel replica of Princess Margaret's diamond-studded crown, 14 feet wide and weighing 2,500 pounds, is on display on the roof of a hotel in Bermuda. Hand made in Canada of the gleaming steel, at a cost of more than \$20,000, the crown took eight men one month to build.

this year. The Bears are 5 and 3 for the season.

"They aren't too tall," coach Rog Andrews said, "but they hustle and will be pesky."

NICKEL AT KITTY HAWK

Nickel, one of the key alloying elements for the highly stressed components of today's jet aircraft engines, was also present in the earliest aircraft. The Wright Brothers' flying machine, which flew in 1903, contained nickel-chromium steel in its engine.

The strawberry belongs to the Rose family.

Discover the difference in the '65 Chevrolets

(As different from other cars as they are from each other)

CHEVROLET—As roomy a car as Chevrolet's ever built.

When you take in everything, there's more room inside this car than in any Chevrolet as far back as they go. It's wider this year and the attractively curved windows help to give you more shoulder room. The engine's been moved forward to give you more foot room. So, besides the way a '65 Chevrolet looks and rides, we now have one more reason to ask you: What do you get by paying more for a car—except bigger monthly payments?

CORVAIR—The only rear engine American car made.

You should read what the automotive magazines say about the '65 Corvair. They're wild about its ride. They think there's nothing else this side of the Atlantic that can touch its styling. They say if you haven't driven a new Corvair Corva with a 180-hp Six Turbo-Chargaed! you just don't know what you're missing.

Drive something really new—discover the difference at your Chevrolet dealer's

Reduce Backlog of Traffic Cases

Springfield, Ill.—Secretary of State William H. Chamberlain has announced that the backlog of unprocessed conviction reports for traffic law violations is 11,438, less than at the same time a year ago, despite the fact that 156,028 more reports have been received in the same period.

Through Monday of last week, 1,133,204 conviction reports have been received this year, as compared with 977,170 for the same period of 1963. Mr. Chamberlain said. At present, the unprocessed backlog stands at 32,265, as compared with 43,703 a year ago, he added.

None of the unprocessed reports involves a violation calling for mandatory revocation of the driver's license, Secretary Chamberlain emphasized. All reports of that type are separated from each day's mail and processed immediately, a procedure which has been followed throughout the year, he said.

Mr. Chamberlain attributed the increase in the number of conviction reports to the effects of the new Judicial Article to the Illinois Constitution, which became effective last January 1.

The average American woman uses about three times her weight in cosmetics during her lifetime.

ANTIOCH'S NEW YEAR'S EVE

As you entered the Antioch Moose Home on New Year's Eve you could see a room decorated to the fullest with the multicolored streamers and imitation chandeliers, balloons and Christmas stockings that hung on the ceiling and walls and which created the illusion that they were just hanging in space.

In one corner stood a huge Christmas tree all trimmed and sparkling with lights and next to the tree the bandstand and its sign of Happy New Year glittering in sequins. The sign that hung on the center wall, which read "Look Alive in '65" had nothing on "The Shays," who furnished the rock and roll music for dancing and kept you looking alive.

By 10 p.m. the place was filled to capacity, and Pearl Anderson and Doris Johns, who were waitresses for the evening, did a remarkable job of keeping up with the wants and needs of the crowd.

The entertainment came at 11 p.m. Singers, solos and duets, the guitar player and singer and the chorus girls who gave a wonderful impression of how chorus girls dance. Did I say "chorus girls"? Bob Avery, Ron Polson and John Dupre were great as part of the chorus.

Old Father Time (John Dupre) put in his appearance and reminded everyone that '64 was soon to go and as the old year went out, the new one came in with greet-

Gems of Thought

LIGHT AND SHADOW

Keep your face in the sunshine and you cannot see the shadow.—Helen Keller

Beware lest you lose the substance by grasping at the shadow.—Aesop.

My care is like my shadow in the sun—Follows me flying, flies when I pursue it.—Queen Elizabeth I

He who dwelleth in eternal light is bigger than the shadow, and will guard and guide His own.

—Mary Baker Eddy
Moral light is the radiation of the diviner glory.

—Thomas Dick
Out of the shadows of night,

The world rolls into light; It is daybreak everywhere.

—Henry W. Longfellow

ings to everyone above all the noise. Finally everyone settled down to enjoy a feast from the table which was filled with goodies of all kinds to cure any hunger.

Clarence and Helen Jarvis, members, called long distance from Tacoma, Wash., and talked to several of the members and wished everyone a Happy New Year.

COMING EVENTS

There will be a meeting

for the W.O.T.M. on Thursday, Jan. 7, at 8 p.m. at the Moose Home. The Child Care Committee will present their Chapter night program.

There will be a meeting for the L.O.O.M. on Wednesday, Jan. 13, beginning at 8 p.m. All members are urged to attend.

There will be a Third District meeting at the Fox Lake

Lodge on Saturday evening, Jan. 9, at 8 p.m.

The Ritual workshop for the Third District will be held on Sunday, Jan. 10, at the Crystal Lake Moose Lodge at 1:30 p.m. Harry Howard of Mooscheart and Woodstock Degree Staff will do the work. All the ritual of the Third District are asked to be at this meeting.

A district ritual competition will take place Sunday,

Jan. 24, at 8 a.m. at the Third District Moose Lodge.

A Regional will be held at the Elgin Moose Lodge, Sunday, Feb. 14.

Jerry Miller, chairman of the "Toys for Tots" wants to thank all the members and others who helped make this project such a success. "These toys made the children of the less fortunate families very happy on Christmas day," said Jerry.

THE ANTIOCH NEWS
THURSDAY, JANUARY 7, 1965

"and their happiness made the project worth while."

Antioch Traveling League bowled against the Crystal Lake team last Sunday at Crystal Lake. Jack Christian had high series with 475 and Art LaPlante second with 440. January 17 is the next scheduled bowling date to be played at Fox Lake.

GOVERNOR OTTO KERNER receives a March of Dimes badge from Major General Francis P. Kane, chairman of the Illinois March of Dimes, on the occasion of the Governor's proclamation that January is March of Dimes month.

Dimes March In January

Governor Otto Kerner has proclaimed January, 1965, as "March of Dimes Month," urging citizens of Illinois to contribute to the health agency's campaign against birth defects.

The National Foundation's programs against birth defects include research grants supporting a wide range of investigations. In addition to its research endeavors, the March of Dimes supports a national network of special treatment facilities, one of the newest being at Presbyterian-St. Luke's Hospital in Chicago.

James B. Briggs, vice-president of Outboard Marine Corp., Waukegan, has been appointed chairman of the Lake County 1965 March of Dimes business division.

As chairman of the business division, Briggs will direct in-plant fund-raising and solicitation of corporations and businesses in the area.

Navy Announces New Program

Senior Chief Machinist Mate Leroy S. Bond, recruiter in charge of the local Navy recruiting office announced today particulars of a new program offered by the Navy. The new program called Cache (pronounced Cash) offers several additional opportunities.

Under the Cache program a young man can delay his departure up to 120 days from the day he is enlisted, pick the training center of his choice, choose the day he leaves, pay seniority and military obligation starts from the day he is enlisted and there is no meetings or drills to attend while at home.

For further information contact the local Navy Recruiting Office, located in the

Drug Industry Maligned Says Trust Company

In a publication issued this week, Empire Trust Company, New York, points out that lack of understanding of the pharmaceutical industry's contributions to the national welfare and prevailing antipathetic attitudes in legislative circles jeopardize both the public interest and the pharmaceutical industry's future.

As the bank's Newsletter says, "The U. S. pharmaceutical industry has become the subject of attack and rebuttal, claim and counterclaim, to an extent perhaps unparalleled in the recent history of any other American industry. As a result, the industry's magnificent achievements, its monumental role in the prevention, cure and alleviation of disease, have become obscured in the public mind."

The U. S. Pharmaceutical industry's problems are complex, the Letter states, and it is essential that they be recognized and appreciated—not only by legislative and regulatory bodies, but by the public in its own interest. The Letter also details the industry's vast investments in research and the resultant health benefits to the nation and to the free world.

"But the pharmaceutical industry cannot continue to make its vital contributions to the conquest of such critical problems as cancer, heart disease, geriatric ailments and mental health if it is hobbled by purely political or vindictive regulations."

"The industry today does more for the health and welfare of mankind than does any other industry in the world," the Letter states, and cites a spectrum of supporting statistics.

For example, 25 years ago, New York City reported over 12,000 cases of whooping cough with 105 deaths. Last year there were 212 cases—deaths, none. In 1935, 70,080 American died of tuberculosis; in 1963, 9,311. Furthermore, in the 25 years between 1935 and 1960, prescription drugs saved the lives of two million working-age victims of only four "killer" diseases—pneumonia, influenza, tuberculosis and syphilis.

Referring to so-called " tranquilizer" drugs the bank's Letter notes that "today there are 54,000 fewer patients in state and local mental hospitals than there were in 1955, the peak year."

These miracles, the Letter notes, have been achieved at vast cost in time and money. "Out of every 2,500-3,500 compounds originally synthesized, only one survives to reach us as a safe, effective prescription drug."

"U. S. drug manufacturers reinvest the equivalent of half their profits—after taxes—in research and development. Unlike such industry categories as Aircraft and Missiles, or Electrical Equipment and Communications—where research is for the most part financed by government funds—pharmaceutical research is underwritten almost entirely by the industry itself."

quillizer" drugs the bank's Letter notes that "today there are 54,000 fewer patients in state and local mental hospitals than there were in 1955, the peak year."

Unlike such industry categories as Aircraft and Missiles, or Electrical Equipment and Communications—where research is for the most part financed by government funds—pharmaceutical research is underwritten almost entirely by the industry itself."

RUM RUN IN STAINLESS

Rum is shipped from Hawaii, for bottling in California, in huge nickel stainless steel containers, each holding 4,800 gallons and weighing 50,000 pounds when full. The strong, corrosion-resistant containers are stored in a ship's hold and then transferred to semi-trailer trucks for final delivery.

To Test Children's Musical Ability

Does your child have any musical ability?

You can discover the answer by registering your child for a test Saturday, (Jan. 9) that will determine the youngster's native ability in music, said Kenwyn Boldt, director of The Music Center of Lake County.

Boldt said that the test, offered free by the Music Center, will single out those with special ability for music study. No previous knowledge about music is necessary.

The test will be administered to all children five years of age or older. It lasts 30 to 40 minutes.

Parents may schedule their child for the test by calling the Center at 244-4270 or by writing to The Music Center at Lake Cottage, Bowen Park, 1917 North Sheridan Road, Waukegan.

CANADIAN LANDMARK

The smokestack at International Nickel's iron ore recovery plant at Copper Cliff, Ontario, is the tallest in the British Commonwealth. Standing 637 feet high on a 22-foot base, the stack is almost two-thirds the height of the famed Eiffel Tower in Paris.

The first man to fly an airplane over both the North and South Poles was Admiral Richard E. Byrd.

Channel 11 To Host Stroke Series

The Chicago Heart Association and television station WTTW will score an educational first in January and February when the two organizations jointly produce six programs to aid families with stroke patients at home.

The Channel 11 half-hour telecasts on six successive Tuesday nights beginning January 12 will instruct families in the understanding and care of stroke patients once they are home from the hospital. The programs will be seen at 9:30 p.m.

The segments will probe the psychological and physiological world of the patient, his problems, the family's problems, the physical care of the patient by the family, exercises and other rehabilitative measures and the return of the patient to family and social life.

The series, more than eight months in the planning stage, is the brainchild of the Heart Association sub-committee on stroke education, headed by Leonard Pearson, Ph.D., director of speech and psychology, Schwab Rehabilitation Hospital, Chicago. All program content will be written by the sub-committee with different members appearing on each program.

Hosting the series will be

Dr. Morris Fishbein, author, editor, medical authority and president of the Chicago Heart Association.

Appearing on the programs will be Eric Hodgins, who suffered a stroke and who wrote about his plight in a best-selling book called "Episode."

Mrs. Kerner Gets License Plate No. 2

Secretary of State William H. Chamberlain has announced the assignment of numbers 1 to 100 of state auto license plates.

Eight of the coveted status symbols have been reassigned this year. License number 2, formerly held by the late Edna H. Austin of Oak Park, has been assigned to the Governor's Lady, Mrs. Helena Kerner of Springfield.

The Catholic Bishop of Chicago has license plate No. 1. Included in the 100 names is F. Ward Just, Waukegan, license plate number 78.

Touch-Tone® telephoning comes to Antioch!

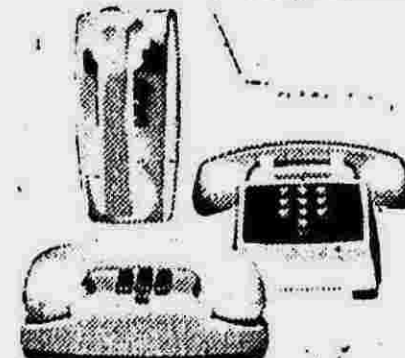

Be among the first to enjoy it...the phone that lets you tap out numbers instead of dialing. It's faster, easier, fun!

If your telephone number begins with 395 or 396 you can place your order now for the exciting new TOUCH-TONE telephone.

With TOUCH-TONE phones you just tap the buttons instead of dialing. Each time you tap, you hear a pleasant musical sound—a different one for each button. And you can tap out a number twice as fast as you can dial.

Want to try TOUCH-TONE calling for yourself? Drop in at one of these locations:

ANTIOCH
Antioch Savings & Loan Association, 425 Lake Street
1st National Bank of Antioch, 946 Main Street
State Bank of Antioch, 934 Main Street

Illinois Bell Telephone
Part of the Nationwide Bell System

TOUCH-TONE telephones are available in several styles, including the standard desk set, a new compact wall phone and the Princess® phone. Wide choice of harmonizing decorator colors to choose from.

*Plus Tax.

TOUCH-TONE calling will be extended into other communities as modifications can be made in telephone central office equipment.

Can Earn Master's Degree At G. L.

Civilians and military personnel interested in obtaining a masters degree in education can attend classes at Great Lakes Naval Center through a program conducted by the Roosevelt University Extension Division.

Registration for the spring semester is 4:00 to 7:30 p.m., Monday, January 11, at the U. S. Naval Examining Center, Building 2711, Green Bay Road, Great Lakes, Illinois, according to Robert Ahrens, director of the Roosevelt University Division of Continuing Education and Extension.

Courses are open to persons holding a bachelor's degree and who have an undergraduate grade average of at least B minus. College graduates with grade averages below B minus may enroll as special students.

The program consists of 12 three - semester - hour courses.

Classes for the spring semester begin Monday, February 15. All classes are conducted from 5:00 to 7:25 p.m.

TINTING GOLD

The natural yellow color of gold can be changed, for use in jewelry by additions of other metals. Alloying with silver gives gold a greenish tone, copper gives it a reddish color, while nickel and palladium have a whitening effect.

STAINLESS PANES

Nickel stainless steel foil, rolled to a thickness of only .00015 inches, is used as windows or covers in containers for radioactive materials.

desiring to bid.

Bids shall be addressed to C. B. Shultis, Village Clerk, and shall be in his hands on or before Eight o'clock P. M., February 2, 1965.

The Board of Trustees reserve the right to reject any and all bids, to waive any informality in any bid, and to accept any considered advantage to the Village.

This notice is made pursuant to the direction of the Board of Trustees of the Village of Antioch on the 5th day of January, 1965.

Star-spangled gift idea

You can put \$50 into someone's future with U. S. Savings Bonds—and the cost is only \$37.50.

You can also be pretty sure your gift will be used for something pretty important. Because most people hang onto their Savings Bonds until something important comes up. Like college tuition, a new baby, and retirement day.

Something else. You give more than money with U. S. Savings Bonds. In a small—but vital—way you give freedom, too. Because Bond dollars do a lot to help Uncle Sam stand tall in this troubled world of ours.

Prices start at just \$18.75 for the \$25 size. Why not give Bonds to all the special people on your list this year? Yourself included.

Quick facts about Series E Savings Bonds

- You get back \$4 for every \$3 at maturity (7½ years)
- You pay no state or local income tax and can defer payment of federal tax until the Bonds are cashed
- Your Bonds are replaced free if lost, destroyed or stolen
- You can get your money when you need it

Buy E Bonds for growth—H Bonds for current income

Keep freedom in your future with

U. S. SAVINGS BONDS

The U.S. Government does not pay for this advertising. The Treasury Department thanks The Advertising Council and this newspaper for their patriotic support.

ILLINOIS BELL SERVICE REPRESENTATIVES from the Antioch business office display some of the new touch-tone phones. From left, Joyce Maiworm of Round Lake holds the wall phone; Virginia Steffenburg, 633 Parkway, presents the desk phone, and Julie Portalski, rural Antioch, displays the Princess.

Touch-Tone Phones Make Antioch Debut

Touch-Tone calling makes its debut in Antioch Monday (January 11).

Illinois Bell Telephone installers will begin hooking up the new-style pushbutton phones for residents and businessmen with telephone numbers beginning "395" and "396", who have ordered this new service.

Important features of this distinctive new way to call are the ease and speed with which a caller can tap out a call, according to Dick Miller, telephone manager.

With Touch-Tone it doesn't take any longer to dial the "9" than it does the "1", he explained. "That's because you don't have to wait for the dial to spin back."

Touch-Tone phones are on display at the State Bank of Antioch, Antioch Savings and Loan and the First National Bank of Antioch. Miller said the exhibits are designed to compare the speed

of Touch-Tone with the present dial.

In addition, coin telephones with pushbuttons are being installed in various locations in Antioch on a gradual basis. A special outside installation downtown is located at the corner of Lake and Main Streets.

Touch-Tone equipment in the central office in Antioch underwent extensive testing this week to make sure it is in top operating condition by Monday, Miller said.

Nearly half of the injury producing accidents at intersections are right angle collisions. Drivers running the lights or signal-jumping are major contributing causes. We can slash accident rates at intersections in half by obeying the traffic signals and the dictates of common sense.

THE ANTIOCH NEWS
THURSDAY, JANUARY 7, 1968

Channel Lake News

By Louise Gutowski
395-1317

The Channel Lake Community Club will meet Wednesday, January 13, at 8 p.m. in the school library. Plans are in the making to form a square dance club in our area. All interested persons are urged to attend this meeting or call Mrs. Tommie Sorenson, 395-2738. The membership drive for 1968 is under way and members are urged to bring their friends and neighbors to the next meeting to acquaint them with the Community Club and its activities in our area.

There will be no PTA meeting for the month of January. The next meeting will be held Wednesday, February 17, at 8 p.m. in the school gym. Speaker for this meeting will be Mr. Dan Dugenski of Antioch. Mr. Dugenski is a First Aid instructor and an active member of the Antioch Rescue Squad. This promises to be a very interesting meeting so be sure to mark this date on your calendar.

The Channel Lake School basketball teams will play Thursday, Jan. 7, at Harrison Grade School. The games are scheduled to begin at 3:15 p.m. The next scheduled games will be played in our school gym Thursday, January 14, at 6:30 p.m. The boys will play Oakland of Antioch.

Loren and Martha Kimmy and family of Lake Ave. spent the New Year's holiday at the home of their daughter, Mrs. Marie Andrea and her husband and sons, of Chicago.

A few driving tips to motorists who find themselves driving during foggy conditions: Reduce your driving speed; set headlights on dim to cut down glare; if fog is too thick, pull your car off the road and wait until visibility improves.

"collar" skills are now being requested by foreign countries.

Peace Corps Test On January 9th

At 8:30 a.m. on Saturday, January 9 the Peace Corps Placement Test will be given at the Federal Building, 325 Washington St., Waukegan.

It makes no difference where the Peace Corps applicants take their test and there is no need to register ahead of time.

Applicants should bring along a completed Questionnaire unless one has already been sent to Washington. The Questionnaire forms are available at most post offices, from the Peace Corps Liaison on Campus or college placement offices, or they can be obtained by writing the Peace Corps, Washington, D. C., 20525.

Peace Corps applicants must be American citizens at least 18 years old. Married couples are eligible if they have no dependents under 18. A college degree is not necessary, but it is advantageous to complete college unless one has acquired a special skill. Many "blue
